

We have lots of fantastic flyers & brochures to help you!

Dead Doctors Don't Lie has been read and listened to more than any other health-related book or CD in history! Immortality will help you reach your genetic potential!

As we age and live our active lives our 'nutritional fuel tanks' are depleted of the precious vitamins, minerals, amino acids and essential fatty acids that every one of our trillions of cells need to maintain proper health. As the deficiencies progress we begin to experience degenerative diseases such as arthritis, high blood pressure, diabetes, joint degeneration, and the list goes on. Most people find themselves being directed to a never-ending life of drugs and surgery in an effort to solve their problems. However, since their issues weren't caused as a result of a deficiency of drugs or surgery those things can't alleviate their problems. Since all chronic health issues are a result of a nutritional deficiency the proper course of action is to provide the body the nutrition it needs **to heal itself!** I managed to reverse all of the issues listed on the back panel and you can achieve similar results! Mind you, we aren't *treating* any disease; we're simply *providing the body with the nutrition it needs to heal itself.* It's as predictable as gravity! I'm 55 years old, I don't take a single prescription medicine and I feel better than I have in years! If you'd like to experience similar results make sure you contact me!

I didn't think I would survive 2012 - then I started on Youngevity - now I expect to live another 50+ years!

Health Issues I've Reversed with Scientifically Based, Clinically Verified Medical Nutrition:

- High Blood Pressure (185/120 to 99/77)
- Degenerative Disk Disease
- Irregular Heart Beat / Arrhythmia / AFIB
- Arthritis
- Joint degeneration (knees)
- Rebound Congestion - (hooked on decongestants) gone!
- Poor Sleep (constantly waking up to urinate)
- Gastric Reflux (on Prilosec for 20 years) - gone over night!
- Skin tags and more...

Plus, I've been able to:

- Lose weight (70 lbs in 13 months - see reverse side)
- Increase my energy levels greatly
- Got off my CPAP (for sleep apnea)
- Improve my outlook on life / sleep like a baby w/o snoring!
- Improve my financial outlook!

Don't let your work rob you of your health!

The demands of a Peace Officer's job, or any other occupation for that matter, coupled with the inadequate nutrition of the 'standard American diet' may not seem to be a problem while we're 'on the job,' but years later, after we retire, we're likely to experience the consequences of years of activity without proper nutrition. You see, it's a proven fact that our bodies need 90 essential nutrients every day to maintain proper health and it's impossible to get those nutrients simply by eating a 'good diet.' Linus Pauling, two-time Nobel Prize winner, determined that all chronic illnesses are a result of nutritional deficiency.

"DO YOU HAVE A FINANCIAL PLAN B?"

LIFE IS UNPREDICTABLE

In today's financial arena there are no guarantees, especially when it comes to 'retirement income.' For that reason it's always prudent to have something to fall back on in the event of a problem with your primary source of 'lively-hood.' Many people consider it wise to develop a second source of 'residual income' that continues to come in month after month no matter where you are, or what you're doing.

Youngevity offers one of the best systems for developing such a source of income, or a **"Financial Plan B,"** if you will.

THE PERFECT COMBINATION...

Youngevity has married two things that everyone needs: **better health and better wealth!** When you use these products you'll experience a major difference in how you feel. When that happens you'll tell everyone you know - **you might as well get paid to do it!** The great part is that you don't have to 'qualify' anyone because everyone you know needs what we have to offer. When I was in the Marine Corps we had a term for that - a **'target-rich environment'!**

THE CHOICE IS SIMPLE...

If you'd like to increase your options to augment or replace your current source of income, or to improve your retirement, make sure you *get in touch with me* to see if you qualify to join my team!
